## Kenilworth Is Getting Ready For Another Town Election

Yesterday's conference between the citizens committee and the citizens of Kenilworth village resulted in the nomination of the following ticket for the forthcoming town election: Mrs. James Madison Chiles, Roscoe A. Marvel, T. G. Williamson, and G. V. Varner.

All of the above candidates are well known citizens of the town of Kenilworth, and prominent in various civic activities which have added to the pleasure and entertainment of the permanent residents as well as members of the summer colony who spends the season here. They have provided children's playgrounds and made other community improvements which have elicited the praise of the citizens.

The citizens committee have just issued a statement to the Kenilworth voters asking their cooperation in giving these nominees a large vote as a *testimonial of their efforts* to make of Kenilworth a finer and better community in which to reside.

The citizens committee is composed of James H. Caine, T. P. Johnson, A. Hall Johnson, R. W. Howell, Ronald Greene, and Dr. Arthur F. Reeves.
